Continuation of 11. does NOT place the application in condition for allowance because: The applicant's arguments regarding the combination of the prior art of record fail to pursuade the Examiner because the prior art of record is clearly and unarguably analogous as well as relevant. In addition, applicant's arguments regarding the teachings of the prior art of record fail because when combined together, the prior art of record wholly and flawlessly discloses the claimed invention. Applicant should carefully consider revising the claim language to overcome the pending rejections which would place the application in a better condition for allowance..
